THE SLIMLINE II ROOF RACK

MODULAR

- Add slats easily to create a full platform for ultimate deck space
- Remove slats to create unobstructed access to a vehicle's sunroof
- Add Expedition Rails on the sides, front or back to create a basket-style look and functionality

STRONG

- Designed specifically for the heavy-duty off-road use
- Made from high-density aluminum
- Double-walled channels create superior joint support

LIGHTWEIGHT

- Aluminum construction is 30% lighter than steel on average, maximizing strength-to-weight ratio

MULTIFUNCTIONAL

- Compatible with 55+ Front Runner rack accessories
- Accessories quickly bolt onto slats for easy installation
- Accessories can be attached to top, bottom or sides of rack

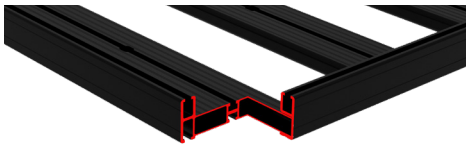

DURABLE

- Designed and powder-coated to take the abuse of the sun, the rain, the gear and any road condition
- Manufactured in South Africa with corrosion-free aluminium, ensuring a lifetime of dependability

FRONT RUNNER

DOMETIC

L-shaped rear and front slat design increases the strength of the entire rack, making the Slimline II the lightest and the strongest roof rack available.

Choose your own adventure with 65+ Rack sizes and 6 different mounting systems.

Turn your rack into a full or partial platform by adding or removing slats.

Consider adding Expedition Rails to your rack. Available in full, half, and side versions.

55+ comprehensive high-quality products across multiple activity segments including overlanding, camping, vehicle and sports equipment.
