THE SLIMPRO VAN RACK

VERSATILE

- Variable high & low profile slat configuration
- Crossbar slat configuration with side access T-slots
- Easy adjustability of slats for mounting different accessories

MULTIFUNCTIONAL

- Suitable for most Front Runner top & side-mounted accessories
- Compatible with 55+ Front Runner Rack Accessories

LIGHTWEIGHT

- Aluminum construction is 30% lighter than steel on average, maximizing strength-to-weight ratio

MODULAR

- Modular construction allows for multiple configurations
- Easily accommodates roof mounted air conditioning units, sky lights and air vents

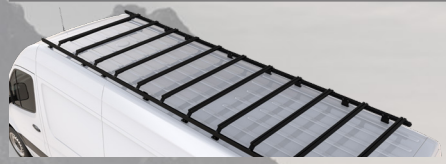

DURABLE

- Designed and manufactured in South Africa to withstand the harshest climates, ensuring a lifetime of dependability

FRONT RUNNER

DOMETIC

THE LATEST ADDITION TO THE FRONT RUNNER RACK RANGE

The new Slimpro Van Rack was developed as a collaboration project between the two manufacturers, combining Dometic's strong presence in the RV and van category; and Front Runner's roof rack design ingenuity.

With vans varying wildly in sizes, shapes and applications this new roof rack was designed to be highly customizable and modular while still being light in weight and low in profile. Whether a long-distance van-life mission, weekend trip or hauling equipment such as building materials and supplies, the Slimpro Van Rack can be configured to any adventure or utility.
